

Getting Around On The Map

- 1 Choose a tool from the toolbar.
- 2 Click on the map to perform the action.
- 3 Choose the map layers you would like to display.

Notes:

- Make sure you are on the "Map" tab.
- You may also pan around the county by clicking the orange arrows around the map or by clicking anywhere on the small locator map in the lower left corner.
- More layers become available depending on how far you are zoomed in and depending on other layers you have selected.

Selecting A Property On The Map

- 1 Zoom in until the parcels layer is available.
- 2 Turn on the parcels.
- 3 Choose the Identify tool from the toolbar.
- 4 Click on the parcel you would like to select.

Notes:

- Make sure you are on the "Map" tab.
- The parcel will be highlighted and you will see its entry in the results box located at the bottom of the screen.
